»Just expect MORE!« is the Esselmann formula for your success. MORE innovation, MORE design and MORE performance at the most favourable possible price all go to make Esselmann mobile bars into a profitable investment.

The BP21 is top of the class in all regards. Starting with the exclusive equipment, through the generous dimensions to a design that perfectly blends form and function. This octagonal mobile bar is a must for anyone who knows the value of MORE as standard.

A large interior space and the central counter block with integrated under-counter cold room (up to 11 barrels of beer) lend themselves to efficient operation. The counter length of approx. 19 m and a covered area of around 50 m² offer space for a broad public at the bar. Eye-to-eye contact between customers and bar staff is maximised by hydraulic height adjustment. An all-round package that guarantees the highest possible sales.

The sophisticated design blends appearance and function in a harmonious whole. Paintwork, equipment and lighting are perfectly attuned with each other. Generously dimensioned advertising surfaces located directly in the field of vision of the customers combine with customised paintwork to round off the overall impact and make the BP21 into a premium sales platform for premium products!
